Kody serwisowe

- Kody ograniczające dostęp do tej części menu urządzeń, która wykorzystywana jest w czasie przeglądów, kalibracji napraw i służy do odczytania błędów oraz kontroli i ewentualnej korekty ustawień i istotnych dla bezpieczeństwa parametrów pracy
- Kody serwisowe podawane są w czasie szkoleń inżynierów serwisu prowadzonych przez producenta. Zgodnie z decyzją producenta dostęp do kodów serwisowych mają wyłącznie wykwalifikowani inżynierowie serwisu OLYMPUS i nie mogą ich nikomu ujawniać

For the adjustment a service password is needed. The password is distributed to you in a service training. The password can be requested from Olympus Surgical Technologies Europe. Please note that the password is OLYMPUS CONFIDENTIAL. It is forbidden to distribute to any other person.

Części zamienne

3 Kategorie części zamiennych

OLYMPUS

5.14 Parts supply policy for 3rd party repair companies and customers.

Note: "Information that seems important" refers to the information that could have the potential of adverse event and illegal conduct, or the great effects on other medical facilities or society. "Customer" refers to the regular user, R&D department or a person who changes the quality assurance department or a person in charge, top management, and sales department.

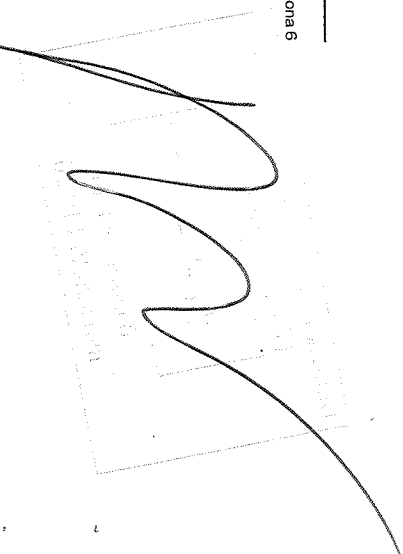

5.14 Parts supply policy for 3rd party repair companies and customers

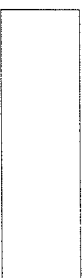

It is basic that repair is performed by Olympus repair centers include qualified agencies and repair parts are supplied to them. In case parts are supplied to 3rd party repair companies or customers¹⁾, each organization shall have the following policy.

- 1) User's repair company shall be approved by Olympus repair center.
 - a) In case of parts are supplied to 3rd party repair companies or customers, repair companies or customers shall meet the following requirements.
 - a) All necessary type, tools, and equipment for repair which is written in the On-Site Service Manual shall be prepared.
 - b) 3rd party repair companies or customers shall be trained by Olympus S RC. The training shall be based on the On-Site Service Manual.
 - c) 3rd party repair companies or customers shall meet the following requirements.
 - a) S RC who supply repair parts to 3rd party repair companies and customers shall meet the following requirements.
 - a) Each RC shall not supply On-Site Service Manuals unless 3rd party repair companies or customers are trained for repair.
 - b) Each RC shall establish document control system for updating of On-Site Service Manuals which have been supplied to 3rd party repair companies or customers.
 - 2) Repair parts supply.
 - a) Repair parts which can be supplied to 3rd party repair companies or customers are only parts which are listed in On-Site Service Manual.
 - b) Prices of repair parts for 3rd party repair companies and customers are based on market prices.
 - c) When S RC supplies repair parts to 3rd party repair companies or customers, S RC shall keep the record of parts supply. The record shall include supply destination, price number, quantity, Product number/lot number or serial number/lot number and parts price. Size of ink and lot no.

Note: 1) Definition of "3rd party repair companies" or "customers" "3rd party repair companies" means repair companies except Olympus business center, subsidiary, qualified agencies.

"Customers" means medical institutions.
